

HEPATOSHIELD

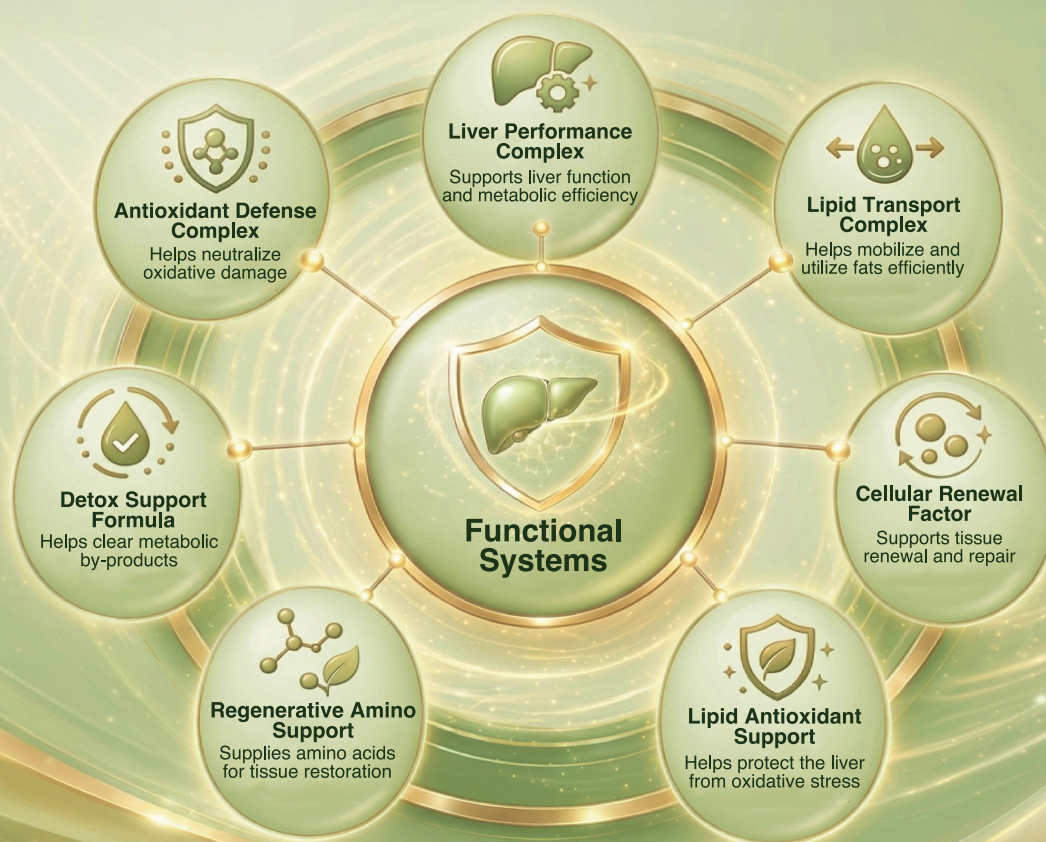

Why HEPATOSHIELD?
Targeted Physiological Support
or Comprehensive Liver Care

Protect the Liver. Improve Recovery. Leverage Performance

“A broad-spectrum liver support solution for poultry performance.”

HEPATOSHIELD is a nutritional support formulation developed to maintain efficient liver activity, support recovery from toxin burden, and promote steady productivity across broilers, breeders, and layers.

HEPATOSHIELD

How HEPATOSHIELD Works

7 Functional Systems

A multi-dimensional support for liver health, metabolic balance, detox efficiency and oxidative protection.

Liver Support

Helps maintain efficient hepatic activity for better nutrient handling and recovery.

Metabolic Care

Supports fat utilization, cellular turnover and internal metabolic balance.

Oxidative Defense

Helps protect tissues against free radical stress and toxin-related damage.

Benefits of HEPATOSHIELD

01

Supports Liver Activity

Helps maintain efficient hepatic function

02

Improves Fat Handling

Supports better utilization of dietary lipids

03

Combats Oxidative Stress

Helps protect cells from oxidative damage

04

Supports Productivity

Helps birds perform more consistently

Recommendation:

Broiler

1 kg / ton of feed

Breeder

1 kg / ton of feed

Layer

1 kg / ton
up to 30 weeks

500 g / ton
from 30 weeks onward
